LOGIKAI JÁTÉK egy játékosnak

A JÁTÉK CÉLJA

Helyezz el minden űrhajóst a saját űrállomásán a játék szabályai szerint.

JÁTÉKTARTALOM

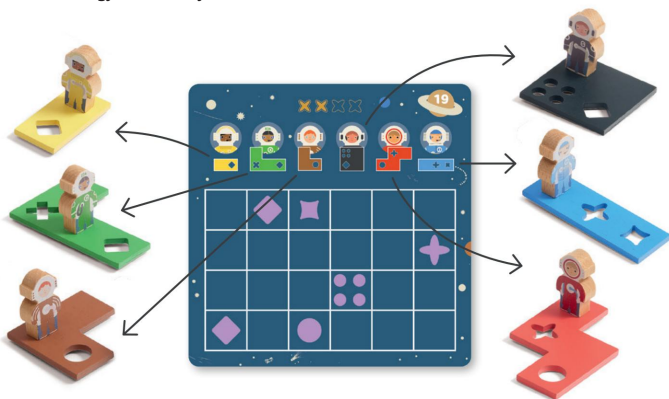

- 1 db fa játéktábla
- 7 fa űrhajós darab
- 12 műanyag űrállomás
- 1 műanyag piros kereszt
- 30 kétoldalas kihíváskártya

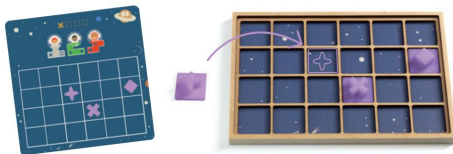

HOGYAN JÁTSSZUK A JÁTÉKOT

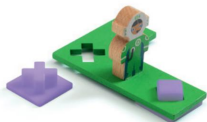

- Helyezd magad elé a játéktáblát.
- Válassz egy kihívást/feladatot tartalmazó kártyát.
A növekvő nehézségi szinteket ez a szimbólum jelöli:
- Vedd elő a megjelölt űrhajósokat.

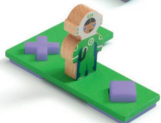

- Helyezd el az űrállomásokat a játéktábla rácsán a kihívás/feladat kártyán látható módon.

A Vörös kereszt nem egy állomás.
Ez egy tiltott zóna – senkinek sem szabad oda belépnie!

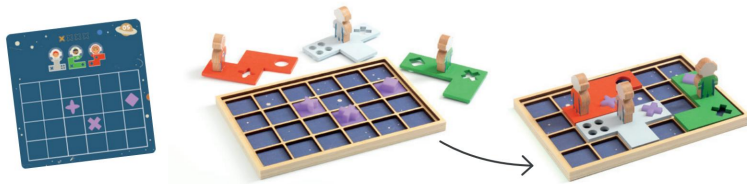

Minden űrhajós padján (amin áll) különböző űrállomások alakú kivágások vannak.

Az űrhajósnak két lehetséges űrállomás egyikéhez kell csatlakoznia.

- Helyezd az űrhajósokat a játéktábla rácsára úgy, hogy mindegyik az egyik állomáshoz csatlakozzon anélkül, hogy átfedné egymást vagy elhagyná a játéktáblát.

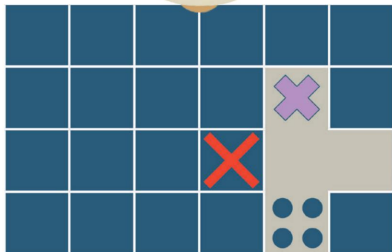

Példa:

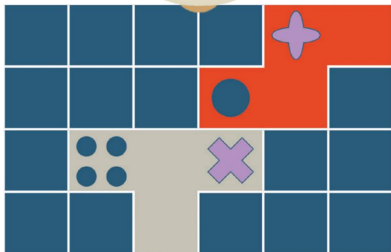

Minden kihívásra csak egy megoldás van!
A megoldásokat a brosúra végén találod.
